

TRAINING

Train your human resources
effectively.

Swiss Aviation Consulting's EASA Approved Training Organisation designs, develops and implements products and solutions for the airline, corporate and executive aviation business. We have access to simulators and aircraft for base training worldwide. Our instructors and experts will provide ground training onsite at the operator's premises.

Management (Systems) Training

Familiarisation trainings for EASA standard Management Systems to the entire team: nominated persons, engineers, pilots and all team members.

Flight Deck Crew Training

TRI/TRE trainings, type ratings and training after skill test.
